

Sanner's Lake IR5050 Rimfire Benchrest Match Report
6 June 2021

The humidity climbed as rapidly as the sun making for a muggy afternoon but a decent turnout of six undaunted competitors wiped the sweat off their collective brows and put down some serious scores at the June IR5050-style match at Sanner's Lake. Greg Banta showed off his new Vudoo V-22S and convincingly demonstrated that the wait was worth it as he took the top spots in both the individual and combined categories while setting a new Sanners three-string record of 742-33X combined! Consistency is the name of the game when it comes to combined scores and the Vudoo sitting on Greg's slick new one piece rest will be a force to be reckoned with at future matches. A few personal bests were notched as well, with Dave Harrell coming back after a bit of a layoff with his 10/22 and scoring a superb 230-6X on his last string, while Joe Cox in his first match saw his scores continue to increase as he dialed up the Zen and approached benchrest nirvana with an excellent 225-4X on his last string.

See the summaries of all the scores below.

Next match is on 1 August, come on out and see if you can set some records of your own!
